ENABLING EDGE
SUSTAINED, SCALABLE RESILIENCE

Working in lockstep with SRG's **Resilience Intelligence** and **Preparedness Frameworks** services, **Enabling Edge** completes the full resilience lifecycle - offering enabling services that enhance the skills, mindset, and staying power to dominate crises through expert speaking engagements, hands-on trainings, immersive workshops, and high-value retainer services.

Speaking Engagements
High-energy keynotes and briefings that ignite "Confidence in Crisis"-topics include resilience leadership, active threat survival (e.g., "Run, Hide, Fight"), or navigating emerging risks like UAS or vehicle ramming threats.

Battle-Ready Workshops
Targeted, interactive sessions-e.g., "Cyber-Physical Threat Defense," "Media Crisis Management," "Executive Travel Security," or "Supply Chain Resilience"-tailored to your industry and risks.

Implementation Consultancy
We guide your team through executing SRG solutions, crafting policies, designing physical security systems, developing resilience strategies, or integrating frameworks into operations.

Insurance Optimization
Reduce premiums, enhance coverage, and ensure compliance, transofmring insurance into a strategic asset for financial security and operational strength.

Specialized Training + TTXs
Specialized training and simulations, including (but not limited to) ransomware, active shooter, physical security design, assessments, utility failure, supply chain disruption, insider threat, or securing mass gatherings.

Retainer Services
Virtual Business Continuity Manager (vBCM), Virtual Chief Resilience Officer (vCRO), and Virtual Threat Intelligence Manager (vTIM) services provide ongoing, reliable partnrships delivering resilience and oversight.

Enabling Edge embeds readiness into your culture, ensuring you're not just prepared but unstoppable.
